# 1. Subject

Replacement of the optional 3<sup>rd</sup> IFD Display unit.

# 2. Affected Aircraft

All serial numbers of the model EA400-500 (Extra 500) with the 3<sup>rd</sup> IFD option installed and with SB-A500A-16-04 (byte flight bus wiring correction) already complied with.

# 3. Introduction

For aircraft having the optional 3<sup>rd</sup> IFD installed the unit shall be removed and returned to the manufacturer AVIDYNE for a data bus modification. The change is identified by REV 01 to the part number 700-00083-002. Compliance with this Service Bulletin will remove random failures of the avionics system's ADAHRS and COM modules.

Do not install the modified IFD3 if SB-A500A-16-04 is not complied with.

# 4. Compliance Time

Compliance with this SB is highly recommended.

## 5. Approval

"The technical content of this document is approved under the authority of DOA re. EASA.21J.551."

#### 6. Instructions

#### 6.1. 3<sup>rd</sup> IFD replacement

#### 6.1.1. Removal

Remove the 3<sup>rd</sup> IFD P/N 700-00083-002 iaw. Maintenance Manual.

#### 6.1.2. Installation

Install the 3<sup>rd</sup> IFD P/N 700-00083-002 Rev 01 iaw. Maintenance Manual.

#### 6.2. Post-installation tests

The 3<sup>rd</sup> IFD does not provide avionics functions except for the additional display of data as already shown on IFD1 or IFD2. The test shall make sure that proper synchronisation between the IFDs is achieved. Therefore, post-installation testing should be performed with all IFDs operating. Proper 3<sup>rd</sup> IFD functioning is ensured when the Avidyne Entegra system has synchronised all IFDs and when the 3<sup>rd</sup> IFD pages shows the data as provided by the IFD1 or IFD2.

For 3<sup>rd</sup> IFD operating instructions refer to the AFM Supplement AFMS-A500A-3140-01 and the Avidyne Entegra Integrated Flight Display System Pilot Guide, P/N 600-00190-000, Revision 05, or later appropriate revision.

#### 7. Material required

One 3<sup>rd</sup> IFD AVIDYNE P/N 700-00083-002 Rev 01.

## 8. Weight and balance

No change.

## 9. Electrical load analysis

No change.

## 10. Operating instructions

No change.

## 11. Instructions for continued airworthiness

Post-installation checkouts are provided under chapter 6.2 and within the Maintenance Manual MM-A500A-0210-01, latest revision.

## 12. Effectivity date

This Service Bulletin becomes effective upon the date of issuance.

## 13. Installation check-out log
